## Interactive Lecture Program on

### Project Management-Future in Pakistan

**Objective:** This training program aims to provide participants with a solid understanding of project management concepts and their practical applications. Through expert-led sessions and interactive discussions, attendees will explore critical topics, including:

- **Project Management Basics:** Definition, temporary nature, unique deliverables, and constraints.
- **Importance of Project Management:** Enhancing efficiency, managing scope, and achieving quality outcomes.
- **Triple Constraint:** Balancing time, cost, and scope.
- **Projects, Programs, and Portfolios:** Differentiating between these structures and their strategic significance.
- **Project Management Methodologies:** Overview of predictive, agile, and hybrid approaches.
- **Role of a Project Manager:** Core responsibilities like planning, risk management, and team coordination.
- **PMO Functions:** Centralized governance, tools, techniques, and resource sharing.
- **Adaptive vs. Predictive Life Cycles:** Choosing the right approach for project success.
- **Current Trends in Pakistan:** Project management's growing importance in sectors such as IT, health, and construction.

By the end of the program, participants will understand how to effectively apply project management principles to achieve organizational goals and manage projects efficiently in diverse environments.
